Unified Endpoint Protection Platform

Comodo's suite of enterprise-level security products provides a complete Unified Endpoint Protection Platform. Which includes:

DRAGON PLATFORM

Fully Integrated SaaS-delivered cybersecurity platform

PATENTED AUTO CONTAINMENT — REAL TIME EDR FORENSICS — ATTACK SURFACE REDUCTION — 24/7 MANAGED SECURITY

Our patented malware isolation technology prevents malware from doing harm at runtime while our unified endpoint security delivers robust capability at the most affordable price. All powered by world-class security experts to augment your team and maximize your security investment.

Comodo's Unified Endpoint Platform stops any unknown executable from running on your network with unfettered access and continuously improves the health of your systems to reduce the overall attack surface. Organizations have had to deploy multiple solutions to accomplish these tasks in the past. But Comodo integrated these critical components to offer a single cloud-accessible Unified Endpoint Protection Platform.

> " *All files were encrypted and could not be restored, except for two PCs running Comodo AEP* "
>
> — **ANDREW CUNNINGHAM, CEO DATA CENTRAL**

Comodo Difference

No one can stop zero-day malware from entering your network, but Comodo can prevent it from causing damage.

Full Fledged Endpoint Security Solution
Our Unified Endpoint integrates this technology with critical components like our highly rated advanced endpoint protection, endpoint detection and response, and endpoint management to offer a single cloud-accessible Active Breach Protection solution.

Patented Isolation Technology
Unlike legacy AV vendors who rely on detection before they can prevent malicious actions, at Comodo we render malware uselessby virtualizing the 3 main components malware needs to succeed. When unknown files run, they are automatically contained.

Superior Cloud-Based Technology
Our cloud-native platform works in real-time to communicate threats between Endpoint Detection and Response, Advanced Endpoint Protection, Managed Detection and Response, Endpoint Manager, and Mobile Device Manager to give you enterprise-grade protection at affordable fixed rates.

Fully Managed Services
Our Security Operations Centers and teams of analysts work around the clock globally. These veteran threat hunters do not assess your business size, they simply love eliminating malware attacks and threats.

SCawards   Gartner **peer**insights.   **AV LAB** THE INDEPENDENT ANTIVIRUS TESTS   **CYBERSECURITY** Excellence Awards   **AV TEST** The Independent IT-Security Institute Magdeburg Germany

ZERO INFECTIONS
ZERO DAMAGE

Our Advanced Endpoint Protection (AEP) is the **only endpoint security solution** providing **immediate isolation** of all threats at runtime! Unknown, zero-day — when we say all, we mean ALL.

Key Capabilities

No one can stop zero-day malware from entering your network, but you can prevent a breach. Comodo prevents malware from causing any damage.

Prevent both commodity and sophisticated attacks
Whether attackers use malware or not, and regardless of whether your endpoints are online or offline.

Continuous visibility and insight
Gain insights into applications and processes running in your environment. Use the inherited risks stemming from vulnerabilities and patch levels to immediately identify, isolate, and remediate threats.

Instantaneous prevention at runtime
Ensures active protection from all unknown threats.

Proactive hunting and tracking of threat activity
Supported by world-class security experts.

Eliminate agent fatigue
Consolidating your endpoints into our unified endpoint security solution delivers advanced endpoint protection, endpoint management, mobile device management, and endpoint detection and response in a single solution designed for full cloud integration and management.

Our Approach

Comodo's suite of enterprise-level security products provides a complete Unified Endpoint Protection Platform. Which includes:

Dragon AEP: Advanced Endpoint Protection

Dragon EDR: Endpoint Detection & Response

Dragon MDR: Managed Detection & Response

Dragon EM: Endpoint Manager

Unknown or known — We've got you covered.

We protect and defend your systems and data while replacing multiple solutions. Our patented approach to stopping breaches is disrupting the market and the damage caused by malware & ransomware.

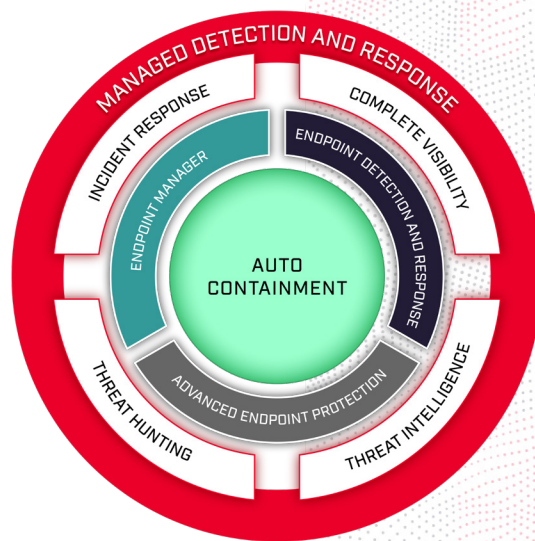

STOP DAMAGE BEFORE IT STARTS

Our exploit prevention, enhanced visibility, and endpoint management combine not only neutralize ransomware but also contain breaches, avoid data loss, and maintain cyber hygiene.

Our Active Breach Protection delivers a unified endpoint solution to neutralize ransomware, malware, and cyber-attacks **before** they can do any damage!

Unified Manage Security
DRAGON PLATFORM

A single unified endpoint solution offering exploit prevention, advanced threat hunting, and endpoint management to stop ransomware, avoid breaches, and sustain your business.
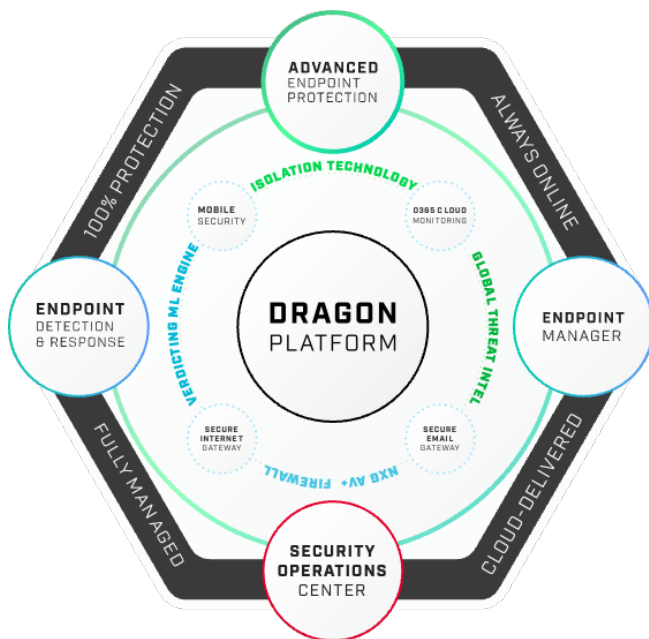

AEP

Move from Detection to Prevention with Auto Containment™ to isolate infections such as ransomware & unknown threats.

EDR

Gain full context of an attack to connect the dots on how hackers are attempting to breach your network.

EM

Practice cyber hygiene to reduce the attack surface by identifying applications, understanding the vulnerabilities and remediating patches.

MDR

With 24•7•365 SOC Investigation and Remediation, your vulnerabilities are due to lack of resources, processes, and possibly the technology to maintain all these technologies.

About Comodo

Headquartered in Bloomfield, NJ, Comodo's mission is to help customers avoid breaches with groundbreaking isolation technology that fully neutralizes ransomware, zero-day malware, and cyber-attacks that other security providers can't do. We deliver active breach prevention with patented auto containment technology. Our Unified Endpoint integrates this technology with critical components like our highly rated advanced endpoint protection, endpoint detection and response, and endpoint management to offer a single cloud-accessible Active Breach Protection solution. Comodo's SOC as a Service team makes the solution a frictionless, high-security implementation. For more information, visit https://www.comodo.com/.
